Students have the opportunity to examine the popular topic of food through the perspective of an entrepreneur. They will discover how small businesses are created in Canada and how these businesses succeed as students complete the following activities: watch a video of students creating an original restaurant and of a teen chef preparing his secret recipe, examine menus and secret recipes, discover prices and calculate costs with a profit, and discuss basic principles of decor and promotion. They read texts about Canadian entrepreneurs and restaurants, as well as examine menus and recipes from many cultures. Students also write shopping lists and menus. Final Task: with a partner, students create and present a business plan for an original restaurant that includes a menu, a secret recipe, a decor design, and a promotional jingle. The workbooks support the core activities, and provide opportunities for students to practise language. Also included are additional complementary activities and a comprehensive French-English Lexique for student reference. Also includes the Mini-guide section reproduced in the back of the workbook.
